Managing and Aligning Multiple Projects in a Fast Paced Organization

This is a three-day hands-on, instructor led training class focusing on key functions of **Project Portfolio Management**. The course offers Portfolio balancing, risks, roles, responsibilities and best practices.

Course Objectives

The course structure effectively combines introductory lecture and discussion with hands-on application of portfolio management principles, tools and techniques through applied case study exercises. The primary objective of the course is to help organization leaders identify, evaluate, select and prioritize the right projects (at the right time) that best align the organizational assets with its strategic objectives. The topics include:

- Portfolio Management Objectives, Processes, Roles and Responsibilities
- Portfolio Management Strategy
- Project Identification & Categorization
- Project Evaluation and Selection
- Project Prioritization
- Portfolio Financial Analysis
- Theory of Constraints
- Portfolio Monitoring & Controlling
- Portfolio Reporting & Risk Management
- Regulatory, Discretionary & Mandatory projects
- Best Practices in Portfolio Management

Recommended Attendees

This course will benefit leaders, executives, portfolio managers, functional managers, senior project/program managers and PMO's . The course content is applicable for any industry that must identify, evaluate, select and prioritize projects.

Participants Will Receive

- Comprehensive Student Guide
- Applied Case Studies and Individual/Team Exercises
- Standard Project Management Templates in Electronic Format
- Certificate of Completion and 21 PDU's /2.1 CEUs

Testimonials
